PROJECTS

SecureShare - Secure File Sharing and DevSecOps Pipeline (GitHub)	February 2026 - March 2026
- Built a .NET 10 secure file-sharing platform with AES-256-GCM encryption, expiring and password-protected links, download limits, ClamAV scanning, and access auditing. - Engineered a GitHub-webhook Jenkins pipeline running 24 tests, EF migration checks, Trivy source and image gates, Docker Hub publishing, encrypted backup, AWS deployment, and readiness verification. - Provisioned a two-node AWS environment with Terraform and deployed Caddy HTTPS, Prometheus, Grafana, Node Exporter, and Alertmanager with time-limited infrastructure teardown. - Tech: .NET 10, C#, Docker, Jenkins, Terraform, AWS, Trivy, Prometheus, Grafana.	
Resource Allocation Graph Simulator (GitHub)	July 2025 - August 2025
- Developed an interactive GUI to model process-resource allocation. - Implemented cycle-detection algorithms using NetworkX and strengthened deadlock-analysis concepts. - Tech: Python, PyQt5, NetworkX	
Fundraiser Planner - Website with Gemini chatbot (GitHub)	March 2025 - April 2025
- Built a fundraising platform with an AI chatbot for planning, communication, and data insights. - Implemented multi-turn conversations, real-time suggestions, and secure Gemini API handling. - Tech: Python, React, Flask/Django, Gemini API	

TRAINING

DSA with C++: Splen Technologies & Education Pvt. Ltd	Certificate	June 2025 - July 2025
- Implemented arrays, linked lists, stacks, queues, trees, graphs, sorting, searching, recursion, and dynamic programming. - Improved problem-solving through competitive programming and complexity analysis.		

CERTIFICATES

Microsoft Azure Security Engineer Associate (Coursera)	Certificate	September 2025
Computer Communications (Coursera)	Certificate	December 2024

ACHIEVEMENTS

LeetCode 100 Days Badge	
Solved 100+ coding challenges, demonstrating consistent problem-solving and proficiency in C++ data structures and algorithms.
